To Whom It May Concern:

I am pleased to recommend Nakul Maini of ROI Lift based on my experience working with him.

Throughout our interactions, I found Nakul to be very knowledgeable in coding, digital technology, and the major social media platforms. He has a strong understanding of how these platforms work and how they can be used to support and grow a business online.

I was also impressed by Nakul's relationship with his team. From what I observed and from my conversations with the people who work with him, his team respects him and values his leadership and knowledge.

Nakul has always been professional in my dealings with him, and I believe his technical knowledge, understanding of digital marketing, and ability to lead a team are valuable strengths.

I am happy to recommend Nakul and wish him continued success.

Sincerely,

Raam Pershard
